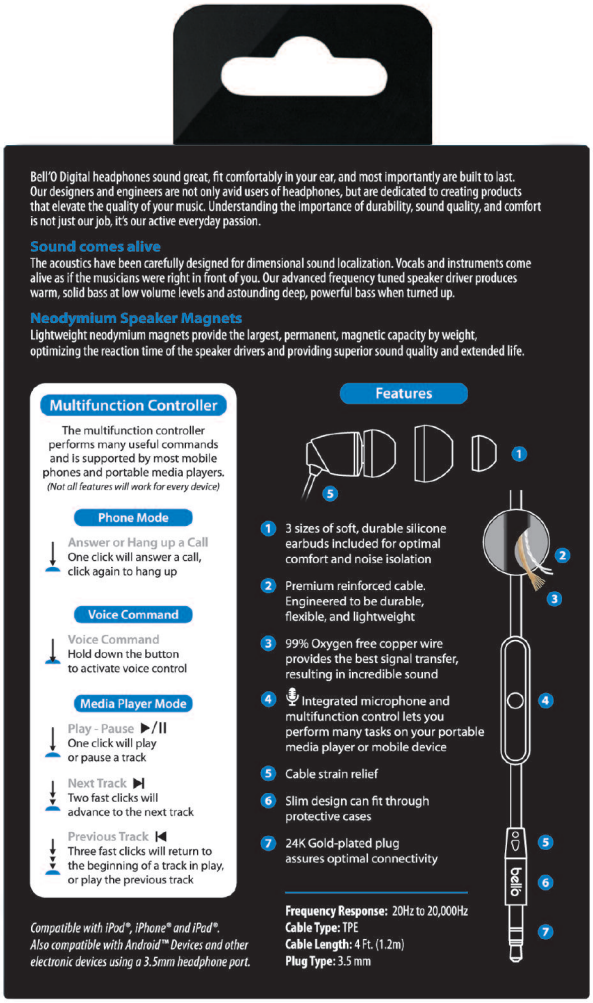
PACKAGING



Bell'O Digital headphones sound great, fit comfortably in your ear, and most importantly are built to last. Our designers and engineers are not only avid users of headphones, but are dedicated to creating products that elevate the quality of your music. Understanding the importance of durability, sound quality, and comfort is not just our job, it's our active everyday passion.
Sound comes alive
The acoustics have been carefully designed for dimensional sound localization. Vocals and instruments come alive as if the musicians were right in front of you. Our advanced frequency tuned speaker driver produces warm, solid bass at low volume levels and astounding deep, powerful bass when turned up.
Neodymium Speaker Magnets
Lightweight neodymium magnets provide the largest, permanent, magnetic capacity by weight, optimizing the reaction time of the speaker drivers and providing superior sound quality and extended life.
Multifunction Controller
The multifunction controller performs many useful commands and is supported by most mobile phones and portable media players.
(Not all features will work for every device)
Phone Mode
Answer or Hang up a Call
One click will answer a call, click again to hang up
